Independently Tested.  
Consumer Trusted.

---

We're AHAM, the Association of Home Appliance Manufacturers, an organization that verifies the testing results of home appliances such as room air conditioners, dehumidifiers – and, of course, room air cleaners.

Since 1967, we've used outside labs to test products, and today you'll find AHAM certified ratings on a variety of appliances. This makes comparing products easier for you.

All of the manufacturers listed in this directory voluntarily participate in the AHAM certification program for room air cleaners. This standardized measurement system – known as the Clean Air Delivery Rate, or CADR – determines how well an air cleaner reduces pollutants such as tobacco smoke, dust and pollen. From air cleaner to air cleaner, compare the CADR numbers listed next to each model number. First, look at suggested room size. Then refer to the tobacco smoke, dust and pollen CADR numbers. The higher the numbers, the faster the unit filters the pollutants out of the air. If from one unit to the other the ratings are the same, their air filtering performance is similar.

## **Companies Licensed to Participate in the AHAM Portable Electric Room Air Cleaners Certification Program:**

---

Access Business Group  
Aigle Corporation  
Blueair, Inc.  
Brookstone  
Coway Co.,LTD.  
CTK Technologies (Shenzen) Co., LTD  
Daikin Industries, LTD.  
Electrolux Home Care Products, NA  
Fellowes, Inc.  
GE Consumer & Industrial  
Gree Electric Appliances, Inc.  
HoMedics, Inc.  
Hung Hsing Electric Co., LTD.  
Kaz, Inc.  
Lasko Metal Products, Inc.  
Master Brands HK Limited  
Rexair LLC  
Sharp Electronics  
3M Company  
Winix, Inc.

# The AHAM Certification Program for Portable Electric Room Air Cleaners

---

The Portable Electric Room Air Cleaner Certification Program is sponsored by the Association of Home Appliance Manufacturers (AHAM). The Program provides assurance to the public, through presence of the AHAM Certification Seal, that manufacturers' claimed ratings of Clean Air Delivery Rate (CADR) have been independently verified in accordance with ANSI/AHAM Standard AC-1, "Method for Measuring Performance of Portable Household Electric Room Air Cleaners".

Under the terms of the Certification Program, manufacturers certify CADR of a portable electric room air cleaner. An independent laboratory verifies the performance of random samples taken from factory, warehouse and dealer showrooms.

Participation in the Certification Program is voluntary and is open to all manufacturers and firms who market private brand models. As program sponsor and verifying authority, AHAM retains a laboratory (Intertek) to administer testing of sample units and to verify manufacturers' claimed ratings.

## Program Scope

ANSI/AHAM Standard AC-1 applies to portable electric room air cleaners that remove particulate matter from the air and that have CADR ratings within the ranges noted below:

Tobacco Smoke	10 to 450 CADR
Dust	10 to 400 CADR
Pollen	25 to 450 CADR

## Room Size Calculation

Room size is calculated using the following formula:

Room Square Feet = Smoke CADR value x 1.55

Room Square Meters = Smoke CADR value x 0.144

This formula is based on the CADR requirement to remove 80% of smoke particles, assuming one room air exchange per hour. Further information on this calculation can be obtained from AHAM.

## The Seal

The AHAM Portable Electric Room Air Cleaner Certification Seal is a mark issued by AHAM to all manufacturers and private brand sellers of portable electric room air cleaners who are Licensees in the Certification Program. Under terms of the Program, the manufacturer certifies that the CADR of all portable electric room air cleaners bearing this mark are determined and accurately stated in accordance with the requirements of ANSI/AHAM Standard AC-1. The Certification Seal is required on all packaging of certified portable electric room air cleaners. Additionally, Program terms require that manufacturers display only CADR values for tobacco smoke, dust and pollen within the certification seal. The seal cannot imply certification of any other feature or performance factor.

## Directory

AHAM's Directory of Certified Portable Electric Room Air Cleaners lists current program models for each participating Licensee in the Program. The directory is published semi-annually (January and July) with quarterly electronic publications (January, April, July, October) available at [www.ahamverifide.org](http://www.ahamverifide.org). The directory edition may include room air cleaner models that were produced during a previous directory period, but which have no scheduled production during the current period.

**Note:** If the word *WAS* is displayed next to a line, the data shown in that line was the previously certified data before the rating was changed as noted.

## Inquiries and Comments

Comments or questions on AHAM's Portable Electric Room Air Cleaner Certification Program should be directed to AHAM or visit our website at [www.ahamverifide.org](http://www.ahamverifide.org).

---

## Ozone Emission Information

---

An ozone emission limit of 50 parts per billion (ppb) is recognized by the U.S. Food & Drug Administration for medical products and is referred to in U.S. EPA guidelines for indoor air quality<sup>1</sup>. Underwriters Laboratories Safety Standard 867 recognizes 50 ppb as a maximum ozone emission limit. Participants may voluntarily provide certified ozone emissions data to UL Standard 867, Section 37, which is not subject to separate verification testing by AHAM. Additional information on ozone emission is available from individual manufacturers.

AHAM provides Program Licensees the opportunity to report portable electric room air cleaner compliance with UL 867, Part 37 in the AHAM Portable Electric Room Air Cleaner Directory. Inclusion of ozone emission information is voluntary. Ozone emission information is not part of the AHAM Certification Program for Portable Electric Room Air Cleaners and is not subject to independent verification testing by AHAM.

---

<sup>1</sup> This limit is also recognized by California Law AB2276-2006 for emissions from portable air cleaners sold in the state. There is no implication that ozone listing in this directory complies with the California ozone certification program for air cleaners.
